Junior Front End Developer

Creative and detail-oriented front end developer with a passion for crafting responsive, accessible, and intuitive web experiences. Trained through the *Frontend Simplified* program, I bring hands-on experience with modern tools and frameworks, and a collaborative mindset that thrives in remote-first environments. Ready to contribute to Bluegeko's mission of transforming bold ideas into legendary digital products.

Technical Skills

- **Languages**: HTML, CSS3, JavaScript
- **Frameworks**: React.js (Hooks, State Management)
- **Styling**: HTML, CSS, REACT-BASED Modules
- **Tools**: GitHub
- **Concepts**: Accessibility (a11y), Semantic HTML, Performance Optimization
- **Deployment**: Frontend Web-page design

Projects

Legendary Portfolio Website
Built a sleek, responsive portfolio to showcase projects and skills. Designed with HTML/CSS/JS, and deployed as a web-page design.

React To-Do App
Created a dynamic task manager using React hooks and local storage. Focused on clean UI, performance, and accessibility.

Education & Training

CAPELLA UNIVERSITY, MINNEAPOLIS (MN), Master of Business Administration (MBA) – (Graduation with Distinction, 4.0 GPA)

FAYETTEVILLE STATE UNIVERSITY, FAYETTEVILLE (NC), Accounting (BS)

UNIVERSITY OF MAIMI (FL), cybersecurity boot-camp (8 week courses)

Frontend Simplified Course – Online
Completed a rigorous, project-based curriculum focused on real-world front-end development. Gained experience in team collaboration, Git workflows, and HTML, CSS, JAVASCRIPT and REACT-BASED fundamentals.

Soft Skills
